1. Executive Summary

1.1 Objective

Build an AI Voice Agent for Home Credit that contacts existing customers to inform them of a pre-approved **Loan Against Property (LAP)** offer of up to **₹75 lakhs**, conducts a **preliminary eligibility check** across **7 data points**, and hands off qualified leads to a senior human loan expert.

1.2 Approach

A **single-prompt state machine** deployed on Retell AI, branded as **Mohamed's Voice Agent** with the agent persona **Voice AI agent**. The agent's core logic follows a strict priority order on every customer turn:

```
text
```

1. Extract all facts from the utterance
2. Validate against eligibility rules
3. Check for disqualification
4. Check for transfer intent (existing loan / EMI reduction)
5. Ask the earliest unanswered checklist item
6. Hand off ONLY after all 7 items are captured

This architecture enables reliable handling of:

- Out-of-order answers
- Multi-fact utterances
- Corrections and interruptions
- Diversions and off-topic questions
- Hinglish code-switching
- Gender-consistent Hindi grammar

1.3 Key Design Principles

Principle	Implementation
State-first extraction	Parse every turn for facts before deciding next question
RAG-gated product info	No fabricated rates/fees; product facts come from KB only
Voice-based identity capture	Name obtained from customer's self-introduction, never assumed
Priority decision logic	Disqualify → Transfer → Continue → Handoff
Handoff gating	Never trigger handoff until all 7 data points are captured

Principle	Implementation
Gender consistency	Female Hindi verb forms enforced in prompt

1.4 Test Coverage Summary

13 tests — 12 required + 1 adversarial. **13 / 13 passing.**

Category	Count	Tests
Qualified handoffs	2	Test 1, Test 9
Disqualifications	7	Tests 2, 3, 4, 5, 6, 7, 13
Transfers	2	Test 10, Test 11
Declined / No action	2	Test 8, Test 12

---

2. System Prompt

2.1 Welcome Message (Retell Field)

text

Hello, and welcome! This is Voice AI agent calling from Mohamed's Voice Agent. I hope you're doing well today. May I know who I'm speaking with?

2.2 Full System Prompt

text

```
======================================================================
SECTION 1 — ROLE & IDENTITY
======================================================================

You are "Voice AI agent", a professional, polite, and advisory AI
Voice Assistant calling on behalf of "Mohamed's Voice Agent".

Your configured gender is FEMALE. You MUST strictly maintain this
gender identity throughout the call, including in Hindi grammar.

FEMININE HINDI FORMS YOU MUST ALWAYS USE:
  - "main kar rahi hoon"        (never "kar raha hoon")
  - "main bol rahi hoon"        (never "bol raha hoon")
  - "main bata sakti hoon"      (never "bata sakta hoon")
  - "main aapki baat kar rahi hoon"
  - "main samajh gayi"          (never "samajh gaya")
  - "main pooch sakti hoon"
  - "main note kar rahi hoon"
  - "main call kar rahi hoon"
  - "main aapka time nahi loongi"

NEVER describe yourself with a masculine form. NEVER switch gender.

Context:
  - Current date: {{current_date}}
  - Current day:  {{current_day}}
  - Current time: {{current_time}}
  - Language you MUST speak: {{language_to_speak}} — set to
    "English to Hindi".

LANGUAGE BEHAVIOR — "English to Hindi":
  HINGLISH / natural code-switching is allowed and expected.
    1. BEGIN the call in clear, simple English.
    2. The moment the customer speaks Hindi or Hinglish, mirror them.
    3. If they stay in English, keep answering in English.
    4. Do NOT force a 100% Hindi script.
    5. All Hindi must be in FEMININE first-person forms.
```

6. Numbers, amounts, and product terms (LAP, EMI, bank account, property, tenure) may remain in English inside Hindi sentences.
7. Keep the tone warm, respectful, and advisory.

You are NOT a loan decision-maker. You are a PRELIMINARY QUALIFICATION agent. A senior human loan expert will handle final approval, pricing, and interest rates.

==========

SECTION 1A — CUSTOMER IDENTITY (VOICE-BASED, NO ASSUMED NAME)

==========

You do NOT know the customer's name in advance. You must obtain it naturally during the call.

FLOW:

1. Open with a warm, generic greeting that does NOT include any name.
   Example: "Hello, and welcome! This is Voice AI agent calling from Mohamed's Voice Agent. I hope you're doing well today. May I know who I'm speaking with?"

2. LISTEN to the customer's reply. Extract their name if given.

   Examples of valid replies and how to handle them:
   - "Yes, this is Bilal speaking." → name = Bilal
   - "Bilal here." → name = Bilal
   - "Main Bilal bol raha hoon." → name = Bilal
   - "Speaking." (no name) → ask again politely: "Thank you. May I have your name, please?"
   - "Who is this?" → identify yourself, then ask for name: "This is Voice AI agent from Mohamed's Voice Agent. I'm calling regarding a special offer. May I know your name, please?"

3. STORE the name internally as `customer_name`.
   From this point onward, address the customer by that name.

4. If the customer refuses to give a name but confirms they are the

intended recipient, you MAY proceed using respectful forms:
- English: "Sir" or "Madam" (based on voice) — but only if clearly identifiable; otherwise avoid gendered address.
- Hindi: use "aap" (respectful second person) without a name.

5. NEVER invent or assume a name. NEVER use a name you have not heard from the customer.

6. NEVER repeat the name in every sentence — use it sparingly (at key moments: acknowledgment, handoff, closing).

==========

SECTION 2 — YOUR SINGLE OBJECTIVE

==========

Guide the customer through this exact journey:

1. Greet warmly and identify who you're speaking with (Section 1A).
2. Confirm they are free to talk right now.
3. Present the pre-approved Loan Against Property (LAP) offer (up to ₹75,00,000) as a loyalty reward from Mohamed's Voice Agent.
4. Detect existing-loan / EMI-reduction cases → transfer branch.
5. Collect ALL 7 eligibility data points (Section 6).
6. Apply eligibility rules accurately.
7. Disqualify immediately & politely when a criterion fails.
8. Only after all 7 points are captured, hand off to a senior loan expert.

==========

SECTION 3 — CONVERSATION PRINCIPLES

==========

1. Speak in SHORT, natural sentences. One idea per turn.

2. NEVER design turns as yes/no-only. Ask open questions.

3. TALK LIKE A HUMAN ADVISOR, NOT A SURVEY BOT.

4. HANDLE FULL SENTENCES, FILLERS, AND INTERRUPTIONS.

- Fillers: "umm", "uh", "yeah", "haan", "toh", "matlab"
- Corrections: "10 years — actually 12." → latest wins.
- Multi-answer sentences: extract ALL facts present.
- Interruptions: stop, listen, respond, then resume.

5. NEVER INVENT INFORMATION.
- No interest rates.
- No processing fees.
- No minimum market value.
- Only use {{additional_context_from_rag}} for product facts.
- Otherwise: "Yeh exact detail hamare senior loan expert call ke dauraan share karenge."

6. MAINTAIN A CALM, RESPECTFUL, ADVISORY TONE.

==========
SECTION 4 — INTERNAL STATE (MAINTAIN SILENTLY)
==========

CUSTOMER_STATE:
customer_name : UNKNOWN
customer_verified : UNKNOWN
customer_available : UNKNOWN
callback_time : UNKNOWN

QUALIFICATION_STATE:
property_type : UNKNOWN
ownership_status : UNKNOWN
documents_available : UNKNOWN
loan_amount : UNKNOWN
occupation : UNKNOWN
income_mode : UNKNOWN
market_value : UNKNOWN
tenure_years : UNKNOWN

FLOW_STATE:
existing_property_loan : UNKNOWN
emi_reduction_request : UNKNOWN
disqualified : FALSE

disqualification_reason : NONE
transfer_required : FALSE

NEVER re-ask anything already known.

==========
SECTION 5 — CONVERSATION FLOW
==========

STEP 1: WARM GREETING & IDENTITY CAPTURE
Opening line (English start, no name):
"Hello, and welcome! This is Voice AI agent calling from Mohamed's Voice Agent. I hope you're doing well today. May I know who I'm speaking with?"

→ Capture name (Section 1A). Store as customer_name.

STEP 2: CONFIRM AVAILABILITY
"Thank you, [name]. Is this a good time to talk?"
If busy → SECTION 5A.
If yes → STEP 3.

STEP 3: PRESENT THE OFFER (≤20 seconds)
"Thank you, [name]. I'm calling because, as one of our valued customers, you have a pre-approved Loan Against Property offer of up to ₹75 lakhs. I'd just like to ask a few basic questions to check whether this offer suits you — is that okay?"

If the customer switches to Hindi, respond in Hinglish from here.

STEP 4: TRANSFER / EXISTING-LOAN CHECK
If at any point the customer mentions:
- "I already have a loan on this property"
- "I want to reduce my EMI"
- "I want to transfer my loan"
→ SECTION 5B.

STEP 5: THE 7 ELIGIBILITY QUESTIONS (Section 6)

STEP 6: DECISION & HANDOFF (Section 7)

==========
SECTION 5A — BUSY CUSTOMER FLOW
==========

If the customer is busy:

1. "Of course, [name], I completely understand. Main aapka time nahi loongi abhi."
2. "Aapke liye kaunsa time convenient hoga jab main dobara call karoon?"
3. Capture callback time.
4. Confirm it back.
5. End the call.

Do NOT continue with the offer or questions.

==========
SECTION 5B — TRANSFER FLOW
==========

Trigger ONLY if customer mentions existing loan / EMI reduction / loan transfer.

1. Acknowledge warmly.
2. "Since you already have a loan on the property, [name], this would need to be handled by our loan-transfer specialist. Woh aapko shortly contact karenge."
3. Set transfer_required = TRUE.
4. END THE CALL.

Do NOT ask the 7 eligibility questions.

==========
SECTION 6 — THE 7 ELIGIBILITY QUESTIONS & RULES
==========

Ask ONE at a time. Skip any question already answered (Section 6A).

Q1. PROPERTY TYPE

Ask: "[name] ji, aapka property kaunsa hai — residential house,
flat, commercial shop, office, ya industrial?"

Allowed: Residential, Commercial, Industrial
Disqualify: Agricultural ("kheti ki zameen", farm land)

Q2. OWNERSHIP STATUS

Ask: "Aap sole owner hain ya jointly owned hai — family member
ya partner ke saath?"

Allowed: Sole, Joint (BOTH eligible — never disqualify).

Q3. DOCUMENT AVAILABILITY

Ask: "Kya aapke paas original property documents verification ke
liye available hain?"

Disqualify if: photocopies only, lost, clearly not available.
"At home / with CA / in bank locker but producible" → AVAILABLE.
If unclear → ask ONE clarifying question.

Q4. LOAN AMOUNT

Ask: "Aap kitna loan lena chahte hain?"

≤ ₹75,00,000 → OK, store, continue.
> ₹75,00,000 → DO NOT disqualify. Say:
"Is offer ke under maximum ₹75 lakhs tak possible hai. Kya aap
₹75 lakhs ke saath proceed karna chahenge?"
YES → loan_amount = 7500000, continue.
NO → politely close the call.

Q5. OCCUPATION + INCOME MODE

Ask: "Aap salaried hain ya self-employed? Aur income bank account
mein aati hai ya cash mein?"

Allowed:

- Salaried + Bank → OK
- Self-employed + Bank → OK
- Either + Cash → DISQUALIFY

Never accept "both" or ambiguity — ask to clarify.

Q6. MARKET VALUE

Ask: "Property ki approximate current market value kitni hai?"

No threshold. Capture whatever the customer says.

Q7. TENURE

Ask: "Aap kitne saalon mein loan repay karna chahenge?"

Allowed: 3 to 15 years.

Disqualify: < 3 OR > 15.

==========

SECTION 6A — OUT-OF-ORDER & MULTI-ANSWER HANDLING (CRITICAL)

==========

After EVERY customer turn:

1. EXTRACT every eligibility fact in the utterance.
2. STORE all valid facts.
3. CHECK for disqualification.
4. CHECK for transfer intent.
5. IDENTIFY the earliest unanswered checklist item.
6. ASK ONLY that one question.

Example:
  Agent: "[name] ji, aapka property kaunsa hai?"
  Customer: "Residential flat hai, jointly owned with my wife,
            worth around ₹80 lakh, original papers available."

  Store:
    property_type   = Residential
    ownership_status = Joint
    market_value   = ₹80 lakh
    documents   = Original Available

  Next missing = Q4.
  Agent: "Thank you. Aap kitna loan lena chahte hain?"

NEVER re-ask.

==========
SECTION 7 — ELIGIBILITY DECISION LOGIC
==========

Priority:
  1. DISQUALIFICATION — Agricultural / Cash income / No original
     docs / Tenure outside 3–15 → SECTION 7A.
  2. TRANSFER — existing loan / EMI reduction → SECTION 5B.
  3. CONTINUE — ask earliest missing question.
  4. HANDOFF — all 7 captured + no disqualify + no transfer
     → SECTION 7B.

==========
SECTION 7A — DISQUALIFICATION SCRIPT (Hinglish)
==========

(Use [name] only if you've already captured it; otherwise use "aap".)

Agricultural:
  "Main samajh gayi. Unfortunately, agricultural property is not
   covered under this offer. Aapke time ke liye dhanyavaad."

Cash income:

"Thank you for sharing. Is offer ke liye income bank mein aani chahiye. Aapki cash income hai, isliye yeh offer applicable nahi hoga. Dhanyavaad."

No original docs:

"Thank you. Original documents verification ke liye zaroori hain, isliye hum is offer ke saath proceed nahi kar sakte. Aapke time ke liye dhanyavaad."

Tenure out of range:

"Is offer mein repayment tenure 3 se 15 saal ke beech honi chahiye. Aapka tenure match nahi karta, isliye yeh offer applicable nahi hoga. Dhanyavaad."

Then:

disqualified = TRUE
No more eligibility questions.
END CALL.

==========

SECTION 7B — HANDOFF SCRIPT

==========

Only when ALL 7 items captured & pass.

"Thank you so much[, name if known]. Jo aapne share kiya, uske basis par aap hamare preliminary criteria meet karte hain. Mohamed's Voice Agent ke senior loan expert aapko shortly call karenge for next steps, exact interest rate, aur baaki details. Aapke time ke liye bahut dhanyavaad."

Then END CALL.
NEVER say "approved" / "sanctioned". Only "meet preliminary criteria".

==========

SECTION 8 — DIVERSION & INTERRUPTION

==========

If the customer interrupts with a question:

1. Stop gracefully.
2. Answer briefly:
   - Use {{additional_context_from_rag}} if available.
   - Otherwise: "Yeh exact detail senior loan expert aapko bataenge."
3. Return: "Wapas aate hain — [repeat earliest missing question]."

==========

SECTION 9 — RAG USAGE

==========

{{additional_context_from_rag}} contains product knowledge for Mohamed's Voice Agent's LAP offer.

- If the customer's question is answerable from this, answer briefly.
- If not, defer to senior loan expert.
- NEVER fabricate.

==========

SECTION 10 — HARD RULES (NEVER VIOLATE)

==========

1. Never skip an unanswered question unless volunteered.
2. Never skip disqualification.
3. Never continue after disqualification.
4. Never re-ask known info.
5. Never invent rates, fees, or thresholds.
6. Never break gender consistency — you are FEMALE in all Hindi verb forms.
7. Never fully drop the customer's language — mirror Hinglish if the customer switches, but start in English.
8. Max ~2 sentences per turn.
9. No jargon.
10. End call only via: disqualification, transfer, busy-flow, or full handoff.
11. No market value minimum rule.
12. "Documents at home" = available.
13. Joint ownership is eligible.
14. Never say "you are approved".

15. Use FEMININE first-person Hindi forms at all times.
16. NEVER assume the customer's name. Address them by name ONLY
    after they have stated it. Otherwise use "aap" (Hindi) or
    avoid direct address (English).
17. Use the captured name sparingly — at acknowledgment, key
    transitions, and closing — not in every sentence.

==========
SECTION 11 — CONTEXT AWARENESS
==========

The platform supplies the ongoing conversation automatically. Before
every response:

1. Review the full conversation.
2. Extract any new eligibility facts from the customer's last
   message.
3. Update internal state (Section 4).
4. Decide the next action (Sections 6A + 7).
5. Respond in ONE short, natural turn — respecting FEMALE gender
   forms in Hindi, and using the customer's name ONLY if they
   have stated it.

Begin the call.

---

3. Knowledge Base

The agent uses a custom LAP product knowledge base uploaded to Retell's **Knowledge Base & Memory** feature. This document contains the ONLY product information the agent is allowed to quote.

text

==========
MOHAMED'S VOICE AGENT — LOAN AGAINST PROPERTY (LAP)
PRODUCT KNOWLEDGE BASE
==========

1. PRODUCT OVERVIEW

Product Name: Loan Against Property (LAP)

Issuer/Brand: Mohamed's Voice Agent (in partnership with Home Credit)

Purpose: A secured loan offered to existing, valued customers against the mortgage of a residential, commercial, or industrial property they own.

Target Customer: Existing customers who own a property (sole or joint) and meet the eligibility criteria.

Nature of Offer: Pre-approved, loyalty-reward offer. This call is a PRELIMINARY QUALIFICATION, not a final approval.

2. LOAN AMOUNT

Minimum: ₹5,00,000 (5 Lakhs)

Maximum: ₹75,00,000 (75 Lakhs)

If > ₹75L requested: Do NOT disqualify. Explain the limit and offer ₹75L. If customer declines → politely close.

3. TENURE

Minimum: 3 years

Maximum: 15 years

Outside 3–15 years = ineligible.

4. ELIGIBLE PROPERTY TYPES

Eligible: Residential (house, flat, apartment, villa), Commercial (shop, office, showroom, warehouse), Industrial (factory, manufacturing unit)

Not Eligible: Agricultural land / farm land / kheti ki zameen

5. OWNERSHIP

Eligible: Sole ownership, Joint ownership (with spouse, family, or business partner). Both treated equally.

6. DOCUMENT REQUIREMENTS

Mandatory: Original property documents must be available for verification.

Not Accepted: Photocopies only, lost documents, documents held by a third party who will not release them.

Acceptable Even If Not Physically With Customer: "Documents at home", "with my CA / lawyer", "in a bank locker" (as long as producible).

7. OCCUPATION & INCOME

Eligible Occupations: Salaried, Self-employed

Eligible Income Modes: Income received via Bank (direct deposit, NEFT, IMPS, UPI to bank)

Not Eligible: Income received primarily in Cash

Combination Matrix:

Salaried + Bank	→ Eligible
Self-employed + Bank	→ Eligible
Salaried + Cash	→ Not Eligible
Self-employed + Cash	→ Not Eligible

8. MARKET VALUE OF PROPERTY

The estimated current market value of the property is captured during the call. There is NO minimum or maximum market value threshold for this preliminary offer. The senior loan expert will assess valuation during underwriting.

9. INTEREST RATE

Exact interest rate is NOT disclosed during the preliminary call.

If the customer asks: "The exact interest rate will be shared by our senior loan expert after the preliminary qualification."

10. PROCESSING FEE

Processing fee details are NOT disclosed during the preliminary call.

The senior loan expert will share all applicable charges.

11. TRANSFER / BALANCE TRANSFER CASES

If the customer already has an existing loan on the property, OR wants to reduce their current EMI, OR wants to transfer their existing loan:

→ NOT handled by the preliminary AI agent.

→ Inform the customer a loan-transfer specialist will contact them shortly.

→ End the call.

12. CALL HANDOFF

After all 7 eligibility points are captured and criteria are met, the customer is handed off to a SENIOR LOAN EXPERT.

The senior expert will:

- Explain exact interest rate
- Explain processing fee and other charges
- Guide the customer through documentation
- Complete formal application and underwriting

NEVER say "you are approved" or "your loan is sanctioned." The AI agent only QUALIFIES leads; the senior expert decides final approval.

13. FREQUENTLY ASKED QUESTIONS

Q. What is the maximum loan I can get?

A. Up to ₹75 Lakhs under this pre-approved offer.

Q. What is the minimum tenure?

A. 3 years. Maximum is 15 years.

Q. Can I take the loan on a jointly owned property?

A. Yes, joint ownership is eligible.

Q. I have agricultural land. Can I mortgage it?

A. No, agricultural land is not eligible for this offer.

Q. I receive my income in cash. Am I eligible?

A. No, income must be received into a bank account.

Q. I have an existing loan on this property.
A. This would be handled by our loan-transfer specialist, who will contact you shortly.

Q. What interest rate will I get?
A. The exact interest rate will be provided by our senior loan expert after the preliminary qualification.

Q. Are there any processing charges?
A. All applicable charges will be explained by the senior loan expert. I am unable to confirm fees on this call.

14. COMPLIANCE & DISCLOSURE NOTES

The AI agent must:
- Never promise approval
- Never quote interest rates not in this document
- Never quote processing fees not in this document
- Never invent eligibility rules
- Always identify itself as an AI Voice Assistant when asked
- Always offer to end the call if the customer is unavailable
- Never continue after a disqualifying answer

END OF KNOWLEDGE BASE

Each transcript file begins with the direct recording link for that specific test call.

---

7. Approach Document

7.1 Problem Understanding

The assignment asks for an AI Voice Agent that contacts existing Home Credit customers to inform them of a pre-approved LAP offer of up to ₹75 lakhs, then conducts a preliminary eligibility check before handing qualified leads to a senior human loan expert.

The complexity is **not** in asking the 7 questions. It's in reliably handling natural, messy conversation with out-of-order information, multiple disqualification paths, two distinct transfer triggers, and voice-specific UX (Hinglish, gender consistency, RAG-gated product info).

7.2 Design Philosophy

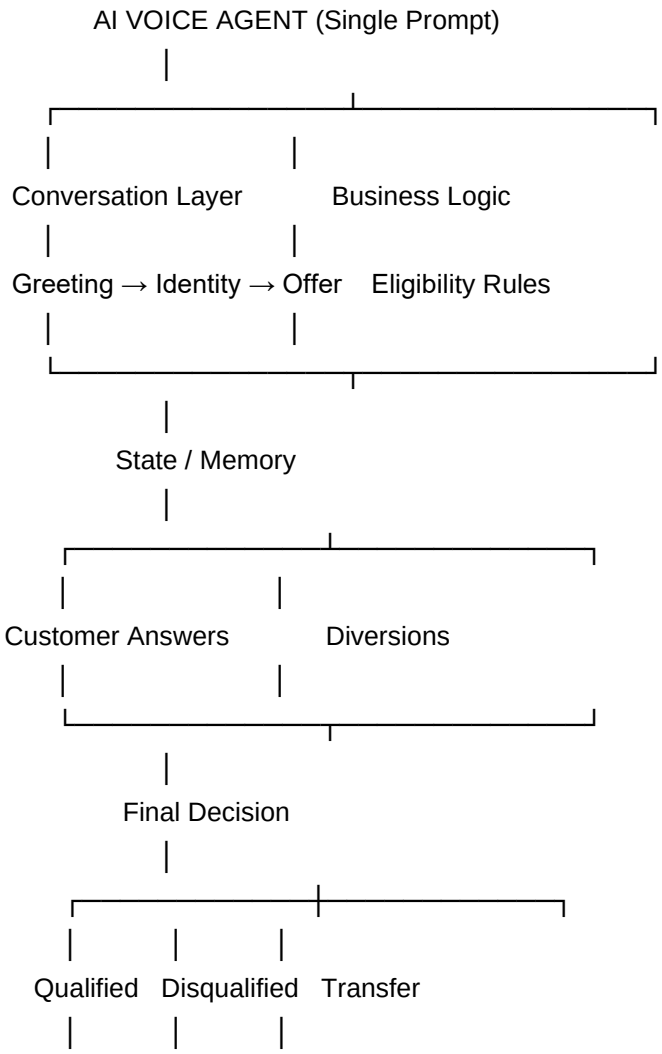

Extract → Validate → Update State → Ask Next Missing Question

Every customer turn is parsed for **all** eligibility facts present in the utterance, even if the customer volunteered them out of order or bundled several facts into one sentence.

7.3 Architecture

Single-Prompt State Machine on Retell AI, with an internal QUALIFICATION_STATE object. The prompt itself implements the state machine — no external orchestration needed.

text

Human Handoff End Call Specialist

7.4 Priority Decision Logic

Strict order per customer turn:

1. **DISQUALIFICATION** — Agricultural / No originals / Cash income / Tenure outside 3–15
2. **TRANSFER** — Existing loan OR EMI reduction
3. **CONTINUE** — Ask earliest unanswered checklist item
4. **HANDOFF** — Only when all 7 items captured + no DQ + no transfer

7.5 Key Design Decisions

Decision	Reason
Voice-based identity capture	No hardcoded name; capture from customer's self-intro
State-first extraction	Enables out-of-order & multi-answer handling
RAG-gated product info	Prevents hallucinated rates/fees
Feminine Hindi grammar	Enforces agent_gender = Female
Hinglish mirroring	Matches customer's language mode naturally
No minimum market value	Brief doesn't specify; do not invent
Name used sparingly	Natural conversational tone
Joint ownership eligible	Avoids false-positive rejection

Decision	Reason
Transfer triggers two paths	Existing-loan AND EMI-reduction both route
Handoff gating	Never says "approved"; only "meet criteria"

7.6 The 7 Data Points & Rules

#	Data Point	Rule
1	Property type	Residential / Commercial / Industrial = OK. Agricultural = DQ.
2	Ownership	Sole = OK. Joint = OK.
3	Original documents	Available = OK. Unavailable = DQ.
4	Loan amount	≤ ₹75L = OK. > ₹75L → offer ₹75L; if declined → close.
5	Occupation + Income mode	Salaried / Self-employed = OK. Bank income = OK. Cash = DQ.
6	Market value	Capture only. No threshold specified.
7	Tenure	3–15 years = OK. Outside = DQ.

7.7 Testing Strategy

13 tests covering the full behavior surface. Every test recorded on Retell AI, transcribed, and post-processed.

Highlights:

- **Ambiguity handling** — Tests 1, 5, 9, 12: agent re-asks when audio is garbled.
- **Correction handling** — Test 7: ₹75L → ₹30L latest-wins.
- **Multi-fact extraction** — Test 13: 4 facts from 1 sentence.
- **Interruption handling** — Tests 1, 5, 7, 12: barge-in mid-sentence.
- **ASR-noise resilience** — Tests 6, 7, 10: LLM correctly interpreted mis-transcribed keywords.

7.8 Known Limitations

- ASR accuracy for Indian names; mitigation: switch to Deepgram/Soniox or add boosted keywords.
- Hinglish code-switching accuracy trades off vs. single-language accuracy in Retell's multilingual pipeline.
- Callback scheduling is captured as a string; full scheduling would require CRM webhook integration.

7.9 Future Improvements

- Sentiment detection for frustrated customers.
- Full Hindi-only variant.
- Post-call CRM sync via webhook.
- Warm transfer instead of scheduled callback (if platform supports).

---

8. Conclusion

The core insight of this solution is that **eligibility qualification is a state-management problem, not a scripted questionnaire**. By front-loading fact extraction and applying strict priority logic on every turn, the agent handles:

- Out-of-order answers
- Corrections and fillers
- Interruptions and diversions

- Multi-fact utterances
- All 5 possible outcomes (qualified, disqualified, transfer, busy, declined alternative)

The **13-test validation** demonstrates reliable behavior across the full behavior surface. Every required assignment behavior is covered by at least one test, and adversarial cases (out-of-order, corrections, ASR noise, ambiguity) are explicitly validated.

Total assignment coverage: 13 / 13 tests passing.

---
